t_id label_topic	
12	9 Parking ? Yes . Remote control parking connected to the car . See if I can do it . It's talking to the car . Can see that
20	3 It comes in at 35.2 inches, so it's a little bit tight from my six foot self , but still comfortable nonetheless.
5	0 Now this car comes in two variations . The 3 28 and the 3 35 The difference is that under the 3 35 Tho difference is that under the 3 35 hood or bonnet is A3 leader 300D horsepower turbocharged engine . They're both fast and in America . At least they're both made it to an eight speed automatic in Europe . You gottal live with a six speed .
2	0 Now I've got 54 miles of charge . It's not full . It's about half empty on .
16	4 It's possible . It's comfortable . It's fun to drive .
12	4 After that, I guess you're on your own .
25	7 That package adds an additional \$750 if you wanted it , but make your way to the front seats .
32	6 So then overall , what I think this BMW X5 was quite interesting .
16	7 Whitefield A3 Balsa wood Phil being with him. S8 bones. It's upto of a point vesterday and finds out tell you about which one.
14	1 It makes no difference now . This is a two plus two .
6	2 Unlike in previous generations, that's now so much more to the A8 in the way it looks.
5	3 SBII , standard equipment is very good , and the massage seats are included A standard , though , to be honest , massive seating cause on that great other kid you get includes panoramic sunroof .
3	2 It makes no pretence at being a family car. It's only got four seats, and really, it's just designed to go quickly down a B road. There's no arguing that the BMW X6 doesn't have its downside, although it may look great.
29	6 Want a fariastic experience 7 This Audi RSS has been and I know that you would've watched daily flogging tried toe hold back some contents that I could give you this first drive the Audi RSA abcause Imm completely blown away by its ability, speed the way that handles comers.
27	1 See hand Met Proteits
2	2 Um you ever look outside ?
2	2 Oil 1, you ere now Add along soon, with more than 400 BHP, the A 35 2 litre turbo engine develops 302 BHP £295 feet of torque in the UK it'll cost from £35,580 now, apart from all the obvious stuff that you'd expect of a hot hatch this time around .AMG has gone too much further lengthen it went to with the old A 45 a.
31	
	9 This car has been the longest doors of any Mercedes-Benz, a bit tricky to get out in tight parking spaces .
18	4 It's a fake it ridiculous, but you can actually turn the traction control off in the eye. A3. It doesn't mean you can turn everything off, unfortunately, but you get this kind of dynamic mode traction control system, and you can probably chuck it about, and it does respond really well. Chuck it about under stairs, ultimately understood because there's a lot of weight in the back of the car on.
11	This is where the magic happens . 4.4 liter V8 as two turbochargers puts out 400 horsepower and £450 feet of forque . Yeah , but that's really be honest with them . This car is a little bit of a pig . I mean , this is a big engine because it's a big , heavy car .
15	0 There is another point. So fueled the fuel tank. I think it's a little bit tiny because considering is just 60 litres. And i, I I've had to fill it a lot if you go on a longer journeys. Although it does give you a decent amount of 13 to 14 kilometers leader. That's the average yes, have managed. And this is kind of a mixed driving in the city and outside the city on a highway. So yeah, I mean, considering that it's a
9	3 So plenty of places to store a war bottle On the whole, it's very spacious, so you get electric seats a standard, and you can take them back quite a long way. So even if you're ganna be able to get comfy here in the front of the IGA, US on in the back as well . It's impressive. So the e class is used in Germany. A taxi airport tax. You see them all over the place. You go to Frank
6	0 Lightning quick, Holy cow I Absolutely love it in the end, Lines ix. Owner, by the way, is plently fast, really, In an SUV, you don't need it 60 faster than 5.3 seconds. Honestly, definitely more than power emerged onto the highway or anything like that. So very impressive acceleration and very insanely fast lightning paddle shifters gotta love it. What's there than to go along with that acceleration?
5	4 Let's put it in dynamic mode here . Basically , what they're driving modes are actually going to do is adjust the throttle response . The shift points and the steering sensitivity is , well , we'll get a little more into that later .
3	6 Is it a softer option than a regular Cooper ? Well , argument usually goes that it is because you lose torching rigidity , you add . Wait high up in the chassis . So if you're thinking about , say , abortion 9 11 convertible , I think that's perceived . Is less of a sports car less of a pure sports car , and I'm not letting keeping .
19	6 She really had to take both of those two elements to make a fantastic car . And that's something I learned in A7 on . We obviously are applying in here in this booth .
23	2 From a business point of view, it's got the nice look. It's got the right looks for a business use.
15	4 It isn't harsh but smooth .
17	4 If you don't have the adjustable MB port suspension , the car doesn't ride or handle as well as it should in his spend extra on the automatic gearbox .
1	6 for the past eight months. This M 135 I has bean my everyday car. That's why it's filthy. But this is no normal. M 135 I we've been modifying it would be upgrading it. So I'm gonna talk you through everything that we've done to this car. We've also brought along on M to same basic platform.
21	9 Actually fake. The point for the diesel engine is actually hidden under there so late.
34	4 But this is a very complicated traveling, and it also handles very well for a big vehicle.
15	y Dust was as a very complication acressing know a sub-desired acressing was not a dust restrict a complication and a sub-desired acressing know 2 point face merit for sub-desired acressing know 2 point face merit face face for sub-desired acressing know 2 point face face for sub-desired acressing know 2 point face face for sub-desired acressing know 2 point face face face face face face face face
15	5 (so storage, so bad for such a little car. In terms of equipment, 18 perty generous. All cars get this entertainment system with a poppet screen on you. Control it with this swivel wheel, and that makes it much easier to select your favorite track when you're driving along, then trying to operate a touch screen when you prancing around all over the place. The only problem is the graphics on that screen
3	
23	7 If you're thinking about buying a BMW five Sir's , you might also investigate the well rounded Audi A6 intensively , Sweetest of although S90 , where the resale value leading Lexus GS , each boasting a lower starting price in the five Sir's . If , on the other hand , you're willing to spend sightly more , we're big fans of the Mercedes-Benz e class , which feels a lot like the flagship s class , but smaller .
21	7 And while the A4 \$54,500 loaded price might sound a bit steep, it's actually not seeing as a similarly equipped jag U ar X8 or Mercedes-Benz C300 cost thousands more. On the other hand, the A4 is residual values continue to trail those of its Lexus, BMW and Mercedes rivals, but in large part to Audi is less than stellar history of long term reliability but a welcome byproduct of incremental engineering
24	1 You can have this Super Kush almost velour like headliner, and you know that's pretty elegant in its own right.
6	1 It's really, really good.
6 9	0 Think a little part of the universe had begun to end because, you know, it's still got 355 BHP two litre turbo engine under that rather high and very ugly bonnet, which means when you put your foot down, it's still properly fast.
6 9 9	0 Think a little part of the universe had begun to end because. you know, it's still got 355 BHP two litre turbo engine under that rather high and very ugly bonnet, which means when you put your foot down, it's still properly fast.  1 Um, the blowers worked very well. The air come works very well. Double blowers for the back in front. Witness way. See? Kicking going. Well. Pacey works well. I'll switch on with those. Yeah, you gotta guess which the blowers off to. Switch that on. Everything works great on there. You got the circulation inside the cab? Um, speed control, temperature. It's all pretty goo

4	3 Okav.
4	3 Uneay: 1 Like some of the features as well. For instance, this car has the the temperature settings for the comet control. Actually, within the dolls. It's really, really smart quys. Then there's entertainment system so standard the car gets a seven inch screen. But this one has the grading system out.
5	6 All right, let's get this disclaimer out of the way. First Audi flew me here to Durham , North Carolina , to test drive this car , and it is a lovely city , and I'm actually very familiar with the A3 platform , and this is a refreshed version of that .
4	9 Now . This particular car is known as the X Line version is the one up from the entry level . Can you get some extra satiny bits of trims and slightly larger Allah wills on these sports seats?
25	9 It's a bit then , when it comes to the startup , let me first start by showing you guys the key . It does have a heavy metal feel to it has the end designation colors on the side and on the front lock . Unlock the lock button is the BMW logo , but also the button pop the rear hatch .
14	3 Audi says any Q5 is also the most aerodynamic midsize SUV on this , Plus , an acoustic windscreen keeps it nice and quiet inside , so we're driving along at Constant 50 miles an hour . I've got sound milto app running on my phone . I'm just gonna shut up for a second . Get reading .
11	6 But to my mind , this still competes with five passenger cars like the Lexus Our X3 50 you might be thinking to yourself with 20 inch wheels and basically a sports tuned suspension .
27	9 Even no one cares . Getting too drunk , they care . You check out the trunk , though this is arriazing .
28	4 Yeah , this come this car's a different car in different mode . I understand why there's a few different modes. This car is a lot of fun , so much fun that my body temperature has risen as the blood is pumping around on these country roads. Probably more nervous . The fact of how wide this car is , I'm used to my R8 , which is slightly wider .
11 21	3 One of the good things about this car being a hard top is the fact that it just feels like a normal coop A8 when you're driving with the reef up , so it's nice and quiet inside you feel secure , My gosh , start to rain .
13	7 But it really is a lovely feature fling even more money at the option boxes, and you can enjoy blind spot warning, adaptive led headlamps, navigation with Apple carplay, adaptive cusies control main keep assists and an adaptive suspension.  6 Was an electric car that really makes a difference is not converted. It's no on adoption. You could argue that the Gulf e Gulf is the closest of any of the other cars where the manufacturer has gone from the ground up. Redesigned the whole body work so that it can be a diesel petrol plug in hybrid or pure electric, which the E golf is one of those cards, so you can argue that I have tried to argue that. But still it's kind of
19	4 So when you go into a complete that, you start to get a for the young it is good to good to good the young it is good to good to good the young it is good to g

15	8 There you can see that we've got the SD cards. That's also where the satinay sits as well. Haven't (think I've even use that now?
11	4 Let's cet the fuck I Oh. no. I'm leaving.
1	6 the Audi Q5 is a compact luxury SUV that does pretty much everything. Well , we could leave it at that . But in honor of Ms Davis , my high school English teacher used to always say , Mr Museo , you're not looking deep enough .
6	4 Theo. Six speed manual is pure mechanical bilss. Listen as the aluminum shifter passes the metal gates.
17	7 We'll need a dish out an extra \$1400 for the driver assistance package .
20	6 If you prefer something that appears less practical but actually isn't, there's the Goc 43 coupe, which embodies all the engaging dynamic qualities of its conventionally styled sibling, but with a more let's just say interesting shape.
9	0 Or you can offer a based A4 ultra in its de tune two Litre Turbo four . Both engines route power to the front or all four wheels for a smooth yet remarkably quick seven speed , dual dutch automatic transmission .
11	0 Sirf's . That's for engines . Well , the petrels here , they're only okay . Details are better , but the 1.5 days old he's a bit slow to 0.1 liters are much more powerful . Another wants to go for what they are . Noisy one . In this car, it's a 200 . Yeah , it should be to do 68 miles per gallon and looking trick computer . Would it saying , it's saying 45 months ago , which isn't quite as I expected .
15	4 They are fitted to this car, and if I switch into comfort mode, the ride is settled. The ride is composed. It's fluid. Maybe not. Thin . WW Golf are levels, but certainly much better than that old a 45. So we've got bundles of driving modes. The new one is called slippery, which clearly we're not going to be using today. That's for very heavy rain and snow and ice and all the rest of it. You've got individual mode where yo
29	0 So well , then . It boasts a staggering 40% more talk than before and can hit 62 miles an hour in just 4.1 seconds . It also weighs 80 kilograms less burns 25% less fuel on the , according to BMW , is almost 30% cleaner than it's V8 predecessor.
15	6 Lease it, rent to fraget it. Tm gonna give the X5 with the sport and performance package a lease it because while it looks like the M, it doesn't perform like them.  0 With a livel drive, however you can get it was a bomb because with writop cettor learnings, which is just carry less. You don't ready use one A3 50 diesel. It's easily quick enough. North 60 just over six seconds.
13	
13 27	0 You might think the base four cylinder engine is unfit for the job, but you're wrong. Don't you were get fixed one horsepower into E73 feet of forque delivers perfectly acceptable acceleration, one with about 24 mpg combined in real world conditions. And best of all, this does not sound idol or feel like a four cylinder engine is unfit for the job, but you're wrong. Don't you were get fixed one horsepower into E73 feet of forque delivers perfectly acceptable acceleration, one with about 24 mpg combined in real world conditions. And best of all, this does not sound idol or feel like a four cylinder engine is unfit for the job. But you're wrong. Don't you wrong. Don't you were get fixed one horsepower into E73 feet of forque delivers perfectly acceptable acceleration, one with about 24 mpg combined in real world conditions. And best of all, this does not sound idol or feel like a four cylinder engine is unfit for the job. but you're wrong. Don't you wrong. Don't you wrong. The form of the first of which is the form of the first you will not be a four the first you wrong. The first you was not you wrong. The first you wrong. The first you was not you will not you wrong. The first you was not you will not you wrong. The first you was not you will not you wrong. The first you was not you will not you
17	4 One of the interesting things about this car is the saling motes So in a lot of electric cars, when he based of the acceleratory, you automatically estable the saling mote So. So in a lot of electric cars, when he based of the acceleratory, you automatically estable the acceleratory, you automatically estable the acceleratory of the saling mote So. So in a lot of electric cars, when he based of the acceleratory, you automatically estable the acceleratory.
19	4 Al fright, so not talking. Left so some driving. They put it in sport, Plus on, you know, this car behaves when it's all tille bit wisting. The steering is Elektronik, or course, and love people complaining about Elektronik steering. And d don't mind that, you know, this riving a steering and some for what the wheels are doing. I can push this car around in a very configure manner. You know, the great people complaining about Elektronik steering. And d don't mind.
9	4 Yesh, it's not bad. It's a sports car. It's hard, it's precise. It's bumps and rattles your teeth because it's meant to go around corners feat and 8 flat. That's what this is all about. Yesh, but it's not bad.
17	1 We've got some slightly special sleeps with RSB written on them, but otherwise pretty much stock A6 slightly funky dials.
20	6 Here comes the inevitable 9 11 GT-R three comparison .
24	6 It's here in the corner , the screen for the rear tablet that we enjoy this video , please Like it , Share it and since white out colonel by clicking on our logo , click down there to watch another video or click over there to refer a friend to CLO .
10	2 Course . Those are just details collected . Whole still exudes a rich premium aura that aura seems worth possessing . Get some decisions to make since the G I E forms .
23	8 It's stupid on phallic gesture. Controls are a bit of a gimmick, and the network all that well. Plus, you look a bit of a tall driving longer.
12	9 Standard features include a Harman Kardon premium sound system, 20 inch wheels led headlights, navigation with real time traffic overlays, rain sensing windshield wipers, adaptive cruise control and a head up display.
32	0 Ah, this particular car driving has the 1.5 A8 turbo petrol engine just enough power to get you back around town on you keep with the traffic on the motorway. The problem I have with it, though, is that what isn't only quiet quiet When you put your foot down red eye, it does complain a law. It starts, you know, economy wise on get in 37 mpg. It could be a little bit better. Actually, this car is better suited to the two litt
8	4 The steering is a electromechanical , of course , is is bound to be on a car like this on . There isn't much kind of touchy feely loveliness coming through the room , but the steering is very , very accurate . You can place the knows perfectly through any corner on alert . It's light . I actually really quite like the way this Carstains , So the eye regenerates .
29 21	3 Obviously back seats. Clay, you carriget people carn't Ap ecopie come to be in this car. This one comes into middle investors. Well, If Watts is not using, but quite like it.  3 Midnit be ince if it was a little bib bigger, sending on your beingth entering the ever three is reasonably simple. Least a front climbing and back requires more effort. One abourd, the seeds feature confortable contouring. Headroom is plentiful, and with an adjustable center armrest and long throw telescoping steering wheel, it's easy to meld with the car. Things would be even incer with adjustable front seet lumbar series.
27	9 The optional running boards will do to get back to the treasures. You get the car . You.

I mean. Llike the little fasting makes when you upshift. That's great, but it's still a four cylinder engine. At the end of the day on all the walls
                    0 So there we go
21
                    2 Those are then various toggle switches there for the ventilation system on this car's got Alcantara the Interior, which makes it feel sporty, as do these wonderful sport seats
                    2 Well , engine aside first impressions of the M , L R . That it has a gratifyingly well finished cabin . Perhaps it's a little un interesting compared to the flambovance of a Range Rovers interior design , but it does feel beautifully out together
                    1 High rollers can also order a set of custom crafted Louis Vuitton luggage for the totally reasonable price of just $26,000.
                    6 M5 a car that isn't going to ruin our planet in its guest to deliver the ultimate driving through , well , sort off ,
                    9 Also, the boot is gretty big on this give features. like a lockable floor for storing valuables, but she also has grown to store the parcel shelf. What's more, you get three way folding seats with electric releases. Total volume is 1600 liters on. With the seats in place, there's still 550 litres capacity. The only appropriate him is the high load floor. The baby. Reality extras is actually lower, so it's easier for old doos. Lean in the
15
                    1 You have automatic headlanne for lamne herause that you're destroying it. Control panel Dim.
                    6 What what kind of quantities of cars ? Well, we do not off course, up. tell the numbers that we see, but you can easily imagine that we have an entire factory only producing units. It will just be just just need runs out of the personal factory on the You might know that you can only un an efficient car production when you come close to left say. 100,000 cars a year. Est it is reeffy clear that we do not calculate with
21
                    9 For some reason, the one touch function for the sun roof will only open it 90% of the way. If you want to open its full way, you have to press it again
                    0 Wow, identical time going the other way. Once again, I know how to computer control. It's hard to believe that the car would have the identical time with me. Just boring
                    0 More on that later, the car suspension and steering systems have been wind, the redesigned and respecified and the familiar range of four and six and under petrol and diesel engines will feature some animal knew. Others haven't been given thorough overhauls
25
                    6 So then my verifict on the Audi RS4. Well. I'll admit it won't be for everybody. For instance, if you like doing track days or nower slides, then it might not be the right car for you
                    1 And then there's the entertainment system . So , yes , it may rise majestically out of the dash , but that screen is pretty small . Boyd Martin standards on the definition . It's a little bit low . Rez . Really ?
                    But my finger part is it also changes the exhaust note. Let me show you. So this is the exhaust in comfort mode and here's the exhaust In sport plus mode. This is sport plus put in sport plus mode. The exhaust changes baffles open. It sounds better but let's see if it's faster. Here we go
                    2 Let's go around. No, sure about the Second Star 2 Ldon't know what it's like. That's somewhat hetter. Tell me on the Old Channel
                    8 For all the governs. the government's let's talk about the government's let me slow down, stop and just show you through governs. So by playing with the I drive button down with the cear lever might normally be , you can swap between pure ever and range extender modes check out your own driving techniques, gre load the heating system and even get los on how to drive your A3 as economically as cossible
                    6 Andi. It's very economical now for more information, and to find out the hest deal you can get on Audi A one click there to go to car. Why don't cave, don't you? Kay? Thanks for watching Click over there for the group test video between the Audi A noe, the mini on the Dis three. And if you enjoyed this video, please like it, share it and subscribe to our channel now, did you know that Audi S4 (nos actually represent the

                    4 The BMW has a sport is drive
                    1 Could be space is a good but trail
                    2 It's a little bit more than that. I mean, what they did is they wanted to make it look like a baby X3, which is a baby X5. So this is a baby, baby
                    6 This is the new Audi A5 sport back and you can think of it as being a combination between the practical A4 silly, which is like shamoon on the stylish A5. Cooper, which is like conditioner. But why take two hottles into the shower when you can have a combined shamoon and conditioner, which is what the A5 sport back is practical and it's stylish. Why was someone giving me anti-dandruff shamoon? I'm trying to say
                    1 Isn't a BMW G5 Sin's touring that brings you into the entertainment system so standard you get a smaller screen in this and you don't get digital dolls?
                    7 It's a £345 option , which is a little bit odd on a car such as this , because , ves . I'm just too rich to be seen as part of the middle I facelift .
27
                    6 Yeah I think this video is gonna need an adult rating now. Then it's time for the car. Wow, A5 appoying things about this car.
                    6. Honefully there's gonns he a let more expiting care on the way. I'm gonns he niver the please share.                     0 Everyone knows Audi A3. Some people fuck quys just fussing a little bit more fuel in May. So live it like cetting away on about these old feelings. S4 may. It's quite quite a bit compared to why you want 60 resting. So yeah , overall. I've been driving first tell a quiet most of the time. Usual I feel by dropping down here, put your foot down, breaking drop it down gets a
                    6 It's not the right weight halance
                    0. I was actually expecting it to go a little bit quicker as I've timed it. F. 63 S8 11.2 seconds. So we give the GT-R chance.
                    3 His noise. You get a lot of war from the tires. There's about with noise rubber. It's not such a problem
                    6 I know that there's Tim out there with a Ferrari FF daily with engine binorer than the whole size of this car. But for what I wanted, this is absolutely perfect. Basically, around this vide off. I might as well say that second video that is going to be coming from my family trip in silk, um is a Q and A about daily drivers. So you've not a question about this car. If you not a question about whether I'm gonne unpracte this car or
25
                    6 Having said all of that if you drive this thing in isolation, if you completely ignore the fact of the 8.45 Angle exists in the first place, you would get into this on
                    8 You can connect to the internet and use Google mans for the satinay. Though I can't show you here because we don't have any mobile signal where we are in Mexico. What I can show you is that you get the car with Apple carplay on droid auto as well as leading the field in terms of tech
                    4 Thing is , though, it doesn't really feel as much fun to drive as a front wheel drive. Audi T.T., It may be a soorts car. but it's not the sportiest of soorts cars. However, this particular car driving here has the dynamic handling package on that doesn't grove things, so it gives you adjustable suspension. It also gives you sharper steering, and it does feel better to drive with that package for you to it.
                    1 Eating service is complete with heated front seats. A4 drive modes. including a customizable individual setting. a 19 speaker banging old son audio system and intuitively designed, seven inch, remote coerated media center with the backup camera and Android auto and apole carolay integration and an eight speed automatic transmission. Yes, you heard right. The S4 ditches. The A4 is more sochisticated dual clutc
                    6 Now this car does compete in a very crowded market segment. Paris like the air X3 50 Lexus ? Yeah . Alexis . That's right. BMW. of course . X3 Mercedes-Benz Geo Cadillac SRX, Yeah . okay . way to go out of town . There's a lot of cars that go for this audience and fired . and I think this one . in my mind is my favorite drives .
20
                    6 Overall. Audi has tightened up the package . but we'll have to wait till we get to Colorado for complete review, because spending a few minutes with the car is not fair to you. And it's not fair to Audi. As always, this is Roman reporting for the fast lane car. Check out TIL car dot com for more news use and, of course, real world reviews. And remember, subscribe for a new car video every day.
                    6 But we've got Refer Friends game. So if you click on the pop out back in the top right hand corner the screen, you can see how you could earn a £50 Amazon gift card. If you prefer a friend to call while on a bar crawl through us.
                    3 It'll out in the room on Henry, and people have six foot conna find in the back of this Q3. Carrying three is not so good, though, because this central seat is quite small and it's raised up to you to get a little less headroom. But it is doable if you need to know what's not.
                    4 The one drawback of the X1 eyes in driver involvement and this was something that was actually pretty disappointing. So things like handling I know that it's a crossover slash SUV. I know that the seating Hyde is a lot higher. Even then, I felt like the car had so much body roll in turns in. Just the Elektronik steering was just not communicating any real feedback to me as a driver. And that was disappointed for really two
                    3 So come looking for the dynamism of saying BMW X5 Porsche Cayenne . You'll not find it here , but what you will find is one of the most comfortable SUVs on the market
                    9 So you press this button on the roof ones darker, press it again and it will no lighter. You don't need a shade. Actually, in the roof addresses itself to get love that predict feature. It's called Magic Sky
                    6 Even taking all those needles into account. Then A3 is actually still quite an exceptional thing
                    2 Obviously 11'm the driver, so that does not apply to me. So the interior of the car basically suits me very well. Especially for my age
26
                    6 The Mercedes C 3 50 e Sport Here are some actual stats directly from Mercedes is £38.845.
                    7 If I had 96 that's called 100 K , but I buy it . I run in the other sports SUVs . I think being a can or a Range Rover
                    1 There's only two of you can fold this down and you've got a cupholder area there if you want to carry three .
                    4 Gearboxes good against shit is good, but on roads like this, a lot roads, actually, you know, you're really changing here for the fun of it.
                    4 And now we're conna take it off into the country ish roads. Just the A Rhodes A roads. the roads. That's right. Right? Twisty ones. We could have a little bit of fun to see what this car like handling. Steering seems to stiffen up when you're under under a bit of ioan , which is quite nice or touch in terms of when you're around town, you want the light steering because they're conna be really fast. But then when you actu
22
                    0 is that realism through speakers ? How do you guys do that ? So there's a couple ways. One . There's actuator that closes the driver's side rear muffler and then one on the outboar
                    0 Siri's perhaps what the trade off is , you're going to get absolutely insane power with this one , and really , the ride quality isn't all that bad anyways .
                    9 At that price , you'll also get full led headlights , moon roof , leather and Alcon Terrace .
                    1 There's also a reasonable amount of storage space throughout the cabin, complemented by a nifty liftback design that lets you toss items into the truck from the front seats despite being a bit firm for our taste seats.
                    9 Like the old J cast, this one uses a ladder frame chassis, and it's a bit like this chocolate bar, where you have, like a lough lower section, which the whales and everything they're attached to the body is placed on top with the new girl. In this case, it also has a rigid axie rear suspension like the old car for better off road travet. Yet the front gets modern double wishbone suspension. Improve comfort.
                    4 Hopefully, the way the new X5 drives is enough to make up for this mold and winds, so the X 50 d has its own unique suspension set up. It's opt coil springs with adaptive dampers. And i. They are set up a little bit firmer than the other. Cars are getting comfort mode in the moment, and it does feel very, very comfortable. It's gonna hiding out. Burns doesn't jump around too much. Just went over there. I could hardly
                     1 Also optional R8 0.8 inch monitor navigation , a pangramic moon roof , leather heated front seats and a 12 Speaker Harman Kardon audio system
                    2 Well , first of all . I have to say I absolutely love the looks of this thing , and it's easy to live with as a daily driver
                    1 Add ones like a foot activated taligate led headlights , navigation with a retractable 8.3 inch display , replacing the standard seven inch unit . A gesture control pad with handwriting recognition and dorado and apple carpiay compatibility , a 23 speaker Bang and Olufsen premium audio system , A4 zone climate control , rear thorax air bags , a rear seat entertainment package and a 360 degree camera system
                    3 This car has got the upgraded massage seats , and I can control that with this
                    9 As for trunk space, there's a reasonable 12.8 cubic feet to play with Oh, and an amazing optional expanding box, for I'm assuming loose tangerines and stuffed animals
                    3 The takeaway save the middle spot for child duty, and the rear quarters worked just fine at the option of panoramic moonroof
                    9 The definition of this reversing camera and a 360 degree surround camera is absolutely glorious
                    9 You can drive the car forwards and backwards by using the remote control, which is perfect for driving into very tight parking spaces. You couldn't get off or ghost riding the wave
                    0 Audi s A3 Cupid , stupid north of 60 times for this sort of car costs £35,000 which may doesn't seem like a lot of money when you've got the Ferrari sort performance or performers oven Audi R8 in this car and it's got a limiter of 155 miles an hour
                    5 Assist is an interesting feature. Watches for tail tail driver inputs that suggest the nut behind the wheel might be drowsy. If you're tired, it alerts you and suggest you stop for a nap or coffee with the kind of electronic nagging that could save lives on the information and entertainment front
                     5 Then you've got some safety kit as well . So this car's auto emergency braking to prevent an accident the one in this cause seems to keep on seeing accidents that on actually about to happen. It keeps pre tensioning the seatbelt
22
                     4 Well . it probably try it in a minute . Where we go for that all off here . See ? Probably quit by breaking into the corner of it is really nice . Actually , you can , right ? Let's go for some here . See action , right ? That's off . Let's see now . She's gonna do thing . There's got something .
                    6 And . of course . find out what's good about it on what's not so good about it
                    6 duys , welcome to Phoenix , Arizona and Audi fool me out here to test your hive . That Yes . that's the brand new Audi are S5 . And vesterday I posted a video to TfL now asking for your input. What questions do you want to know about this new Audi ? And you guys came through and asked a lot of great questions . Luckiiv . Anthony Garbis . the product manager for that car. has become a friend of mine . So coming up
                    9 There's quite a bit of fake advantage on this BMW A8 syriza's straight now with a car while stick of truth . So look at this here
                     1 You don't You don't hear . I know . Well , I hear the radio . Yeah , your high school music . Well , you know , she's standing up . I told you , it's a little competition . When am I?
                    3 Second problem . Rear row seat . There is 1/3 row seat in this vehicle , but it is really , really , really , really . So your children should be like pygmies if you want them
                     4 Technology doesn't end there, though. There some to take the strain out of long motorway journeys such as the steering and lane controlled assistant. So one of the things it can do is read the lines in the road, and it will actively steer the car to keep it within the lines. Now you're supposed to keep your hands on the wheel, and if you take, the market will probably give you about 10 15 seconds of driving that you hand

    End of demonstration

                    6 However . I know everything about the Mercedes C class . Cabral A8 is perfect . Here's five annoying things about it
                    7 You do have to spend extra on the adaptive suspension fit to drive as well as it can
                    1 I don't know . One automatic car has to have such a huge gear selector . It's gonna be getting on for about seven inches
33
                     4 I gotta cruise back now in complete comfort . Andi . just enjoy the rest of my time with this car
                    0 We've also had to go in the two litre, four cylinder petrol model. That was a very nice engine as well. You have to revit. Thio get the power. But once you're there, it's willing to be repped as well. There's a nice spread of talk on. That's probably all the G5 most people are gonna need
```

```
22
                    3 Excellent seats are very comfortable
                    0 lis definitely definitely worth your while Thio get behind the wheel of even the R8 V8 like a lot of people yes , have said that it's no riel supercar because it doesn't do 200 miles an hour . It doesn't do naucht to 60 in three seconds . But really on UK roads . you're . um you don't need any more than this . Has got a brilliant amount of power
                    8 Okay , it's it's It's only at the end of the week that I comfortable with where everything is and confined things , and it's just it's a bit much front center.
                    7 Over 80% of BMW dealerships in the U . S will sell and service the eve A8 . As for pricing BMW . I A8 opens it writer on $137,000 not including up to $5000 in state and federal tax rebates
                    2 Now there's some useful could be space in this car as well when we ran to the front while we do that we'll take a look at the design because, you know, for me, the seven series, it's a big old thing. It looks a bit like an engorged A3. Siri's now company fought the course much here on the inside.
                    4 All right Nathan . Fun car . Very fun to drive .
                    8 Now I can change tracks and adjust volume while looking like a crazy person to everyone around me
                    7. Without restraint, you could early add 10 grand to the cost of your SLC. Same holds true for the AMC SLC 43 where price starts closer to $81,000.
22
                    5 This windscreen is hung. There aren't too many hlind spots. The only made one. I think is the rear pillars, because the actual back window is quite large. And if you get there, you can see yourself by watching my 360 degree video review passenger ride.
                    These include a blind spot warning system lane departure warning system, automatic high beams and a parking guidance feature that helps identify appropriately sized parking spots that helps guide you into them.
                    6 welcome to appear V8 test drive in the BMW 760LL Look the 12. Hell, year, Let's take it for a spin
26
                    2 It's not a nicer in Syria
25

    But it sounds income

                    0 Now it's got a hand built four litre twin turbo V8 with 510 horsepower, and it's possible to do naught to 60 in four seconds. So I'm gonna find out if it really can. My specialist timing gear up here got the car and it's racist settings. I'm just gonna launch it.
                    4 Yeah So marching forward Onda, we are awaiting drives like an automatic
                    4 Our race all right. Certainly oct all right. Certainly not. It's still no White is involving. The steering is light. Responsive, inaccurate, but it's not as ingrained and encrusted with feel a za 9 11 Aiso, it still moves around just a little bit more on its springs
                    3 And I just see me driving in a minute . Lovely heated leather seats .
13
                    6. As I projew. I think I nailed ii. I think I have just one word I love how this Carlos I generate seeing this car got launched at the Motor Show was like RMW making that car, and I can imagine a mass audience that saw BMW A8 for the first time at the Motor Show. I thought that it was a concent car. Didn't think that it was acqually connot be seen on the mad. And that's maybe why people's drawers are on the floor when
                    4 Then Maybe the best thing about the new M3 is that you could do back on thinking it pretty much a lot
                    6 What are you doing in the car ? Get out here. Come on, get out here. What's wrong with you? Have you sat in the seats yet?
27
                    6 So it's bigger. And yet it's lighter already. 74 reasonable. Often as my boss always says he was, she could do that from generation to generation. Get get bigger, more more more handsome in the at the same time. Jose lose weight
                    5 What you will care about is the fact that you do get a standard automatic cruise control so you can keep your safe distance from the car in front so you can just sit back and relax and enjoy the view from your lofty driving position
                    8 And , of course , their standard modern and mandatory multifunction user interface that's frankly quite confusing . Best to turn the radio off . Just listen to the way .
21
                    1 Coolest camera system ever .
25
                    1 These sneakers for the Harman Kardon stereo just looks so flimsy does there, you can remove them
                    2 It is lower than A4. And, of course, it is a lot sevier than both in A4 and A5. At least from my point of view. Of course, this is basically an A4 with a much sevier body placed on top of it.
21
                    4 100% if you've driven this car bean in this car and you've been in the car with the Conference C's and I'm hoping to do a video with another AMG GTS owner in the coming days is just the company's car.
                    0 But that's not why you're watching this video. You want to know how quick this bad boy is ? Well . let me demonstrate. This guy uses an upgraded version of the two litre . four cylinder turbo charged petrol engine from the 80 50 so it now has 306 horsepower and 400 new two meters. Now it should be out to get from 0 to 60 in 4.7 seconds. according to Mercedes. But "m gonna see for myself some time. It with my found the source of th
                    6 So But anyways that is about it for this one. You guys thank you so much for watching be Shouldn't like the video and subscribe your friend of follow me on social media at the bottom of the screen there and I will see you guys in the next video
41
                    2 Why not on the inside 2 it's identical to the A4 but that's no had thing because the design is really nice. Clean on Simple, maybe doesn't feel quite as flashy as a Mercedes C. Class coupe A8, but the quality is actually better than all the materials. They're lovely, they're robust. It feels very well screwed together.
                    6 Thanks for watching you know this video please share it and subscribe. The click. Over there you can watch detail, practicality, entertainment on 363 passenger writte. Did you spot the east rake in the video? It was the album X5 austerity.
                    3 As result. Well being on performance levels are enhanced
                    6 It's not all negative, though. Here's five good things about this car.
                    8 There's no doubt about it. Audi cabins are just oliush and gorgeous, very well accopined. You got a 10.1 inch screen up here. I think i got an eight point something in J 8.0.6 inch screen. Down here, the clarity of the screens is insane. It's a bit of an acquired taste, but all your heater controls your climate and you're you, your descent mode and everything in the union. You now is all touch green. The
                    2 Which one do you think that's the best ? The Porsche Panamera Turbo ? Or this click on the pop out back in the top, right hand corner of the screen to cast a vote ?
                    6 Eves 2002 A3 morning car is going to be Oh , let it made its substance in the nuptial of the discoveries of it . Smooth it does feel does it does feel like the way this just brings it on that extra step its brevity.
                    1 call it Grev. but stone leather You got wood frim. Dower seats. memory seats. power windows. power door locks. Let's take a look at the weather. Good shape. perforated holes in it. Let's breathe in SI Corps does got a little bit of wear going on in your seat, which is pretty common in Mercedes. Seems like all these old Mercedes and get a little cracking going on in your leather, but it is pretty solid. You got a pretty
                    0 Give it a little bit of forque, and just for it. A4 wheels lock up. Since this is a four Matic on, there is 50. It's fast there. S80. Oh. that is very surprising. Chicken out quys. check it out, 7,18 Wondering if in soort mode i could break into the sixes might be possible. Keep in mind if you're at sea level, that will be about a second faster, even, perhaps a little bit more. So let's try it one more time. This time, we'll do it in s
                    8 Before we get too breathless with our praise, there is an issue of usability. While beautifully arranged. Actually, using these controls can be a little bit tricky. For example, there's no dedicated button for skipping to the next track. If you want to do that, you have to use either this rotary knob or this touch pad. But you can't do that right now. First you have to go with the button, rotate over to media. Select that, and not
                    2 On the flip side it does feel luxurious
                    Ucucky. That is a good noise, isn't it? He's a good two turbos, but you wouldn't know you don't hear them throttle response, certainly on their certainly on the road from the Reds is good.
                    0 Finally we're mapped the turbo charged straight six engine. The car is now in birds, be one specifications.
                    4. The semi autonomous driving function effectively lets the car drive itself on my own on the motoway. but also at slow speeds in two. So it does all the breaking on the accelerating. And, of course, the steering. You do because you have to fourth your standing world foll by you know you're still there. Obviously, you don't get if from the mad. Hunely responsible. Jam on a closed less track. This is just so wait there is
                    9 But I also want to mention for that third row they have their own individual monoroof back there. So a lot of times the cities will leave out the third of passengers, and they won't out a move back there. But for the BMW ex seven, they got one
                    6 And so but Daddy's about it for this one. You guys, thank you so much for watching be chyna like the video went. Subscribe. I prefer the fall amounts social media, bottom of the screen there and I will see you guys in the next video. Stay gold. What is up? You guys appreciate you guys watching this review. You guys are all super awesome. If you wanted to support the channel myself in stag a source, you're free to
                    9 You've got bigger wheels .
                    6 We're now some 40 years . more than 50 million units and six full model generations into the astonishingly successful life story of the BMW three . Sir's thistles. The new one . The 7th 1 a car that a great many UK molonway miles every year we'll have been waiting for . You know . even though we're generations deep . no into X1 Z8 X3 Zone one Sir's This is still the most important on the bid
                    9 Well , it's the same size for Geneti liters .
                    3 It's really comfy . Really . Come pick all this
                    9 Of course, round the side, you get some 19 inch alloy wheels
                     1 Other than that , you know , this is quite a practical convertible Z8 vehicle of boxes . Plenty of space under there . The door bins can hold a massive bottle of water on .
                    6 So you read on double If you like this video and make sure to subscribe because there are more and more adventures going to come in this car and there are more collaborations with different people. Also make sure to follow my instagram Facebook everywhere because I'll be posting all the updates and the photos on this car and various other events that I attend until we meet next time.
                    1 And that's really where electronic staring falls down . Of course , one of my favorite features in any new Audi is the configurable , this play and Google maps navigation . That is just well , it is just so tomorrow .
22
                    2 Now, as standard, this line gets sporty seats, which are leather trimmed. Yes, Line also gets a aluminium pedals as well, which is nice and sport as well as bigger alloy Willis
                    4 Does the rest explains why the steering is nice and light? It's precise or so This is the automatic, and so changes gears for you. Say it's easier in town there. Sometimes it can be a bit clurky and jerty at lower speeds. Also, if you're just in normal Dr Mode, not sports mode for the gearbox, and you put your foot down look foot down now, taking off that delay can be a bit of a pain when you're pulling away at junctions
                    4 I just feel really does feel wanted . It doesn't feel four wheel drive . It feels like a really, really great , really well sorted , composed , rear wheel drive car . Just so happens to have phenomenal traction . No matter what you do with Rachael out any corner and the valleys is go . Mid corner in particular is lovely . And that , I guess , is because the central gravity is pretty low.
                    3 They're six years GT-R Kes . Like it's gonna be a company car on dhe .
                    7 By the same token , the weight conscious front seats offer only six way adjustability lumbar support , not being one of them . Then again , most consumers in the market for $137,000 sports car have alternative forms of transportation at their disposal , making the matter of everyday versability a non issue
                    6 After countless decades, we pretty much know what to expect from luxury car manufacturers. Mercedes-Benz, for example. The car's air posh, luxurious but not intensely emotional isn't refreshing when carmakers surprise you.
                    2 These common core badges look a little bit now, and they're even worse when you find out they're actually not that much of the car's called is garbage. The car looks so much better with silver actions rather than this black trip, especially is after watching a motor trend video. All I see now is a hockey stick.
                     4 lit's about the same as not one but two call why producers So while actually, if you have the car adaptive mode, the satellife navigation talks the automatic gearbox, and it tells it to automatically downshift because you're approaching reduction to help slow the car. Also, the stops. Our system is quite clever. They won't just cut the engine if you pause briefly to give way sign
                    9 His home there's a grated 19 into our wills may look super cool The way the rim on the spokes it proud to the tire means you're soon gonna curb .
                     4. It would struggle to put all that power down if it wasn't for the fact that this car comes standard with Cuatro or will drive, and it should be able to do naught to 60 miles an hour in just 4.6 seconds with the automatic gearbox. It's your belt to do it pretty much. Even when the weather is like this. That is a bit of this car, So to launch it, I just put the drive select into dynamic. I put the stability control into sport, the gearbox in
                    8 Theo, Definitely a ton of based, crystal clear ton of loudest. Didn't think I would have any issues, but really absolutely amazing Sound system, as expected, been last thing I wanted to mention on that 10 point to which digital display there is.
                    3 There are seats . Don't quite go low enough for a sporty car on the side . Baltar's that We hold that firmly in place when you get in the corner . You always feel like you're gonna fall out of them . Oh , no , I've fallen . I'd like to get my old bike .
                    9 You have to get led headlights a standard. These are actually the upgraded matrix ladies, which can kind of move that beam about dazzle of the drivers down the side of the car that some side skirts.
                     7 Now I should point out this car hasn't called . The premium plus package is just over three and 1/2 grand on includes integrated satellite navigation system , which includes online service there
                    6 By my reckoning, this is the first time I think since 1977 BMW hasn't sold standard droid version off A3 series with a six cylinder petrol engine who yeah, that kind of feels like a big change to me
                    1 Also asked standard across the range, you get fold down rear seats. They have to come around to the back door to operate them on their own, solit two ways rather than three way.
                    The SL C300 , featuring a two litre turbo charged four cylinder, and the racier AMG SLC 43 with its bit turbo three leader. Be six. Yes., the old SLK could be had with a 5.5 meter V8 with V six is really good. Power comes out quickly and there's plenty of it. Mash the throttle from a standstill , and the SLC 43 goes from 0 to 60 in about 4.6 seconds . Or it'll also spend the tires and freak out of Jason drivers shining
                    7 Audi £57,480 is not cheap, but it is comparable. It's only a couple of ground more than an automatic M3.
                     4 Steering is electric steering. There is a variable ratio, one coming that was the normal one. For now, it's not the most communicative steering it doesn't you wanted Teoh that would really wants a more feeling The interaction from that handling is not vehicle involving.
                    2 I do not the factory get in this car without using the case Audi all realistically calls as well as out drivers calls phone BMW cooled down so I'd be so light That could be a sea of black plastic this black nine time over the speakers blow up like they call it. He didn't like backing
                    6 This is the Audi A4 event, and it's the perfect coffee of modern raft for wearing middle class cyclists because you know it's got the image it's got the locks on .
                    6 lifs always properly exciting when a new Mercedes SL arrives , because it doesn't tend to happen very offen . The SL has been around now since the sublime 300SL of 1952 and since then it has gone through just six Evolution's with the most recent being this all new model on when Mercedes Benz it. It's a totally new platform, and this is also the first Mercedes-Benz all aluminium body show, which weighs 110 kilograf
                    8 Put it in confirmed driving stabilization right now. I mean dear seat off. You see, this is where it's dumped, isn't it? It's just too much going on or the choice front. It's No. One. You have to have two of these buttons
                    0 Yeah , it's good . You know , a combination of dual transmission and turkey turbo really gives it a sense of top . So what's not to like ? But a fuel economy ? More horsepower , greater torque , even more angular
                    2 But old Theo A3 Siri's didn't just have to be fun back in the seventies . That had to be really high quality , and you can see that they've managed that
                    O You can't get in a wheel drive version in the UK but this is a very elegant car, and it's super luxurious to travel in navy
```

6	
	2 It's a little bit tighter back here , but from the outside , it's a lot better looking , at least in my opinion .
22 17	1 Jules. Own climate for passengers. You've also got us BC imports That's nice and modern for the latest smartphones got really tough, really strong pockets in the back of the seats. Heavy old laptop, those and it could hold in place. No problem at all. Then these these little sliding bits here, which you can fit some attachments to that. It's a hawk. Hang things off, and then there's another one here for your coars. It's really strong pockets in the back of the seats. Heavy old laptop, those and it could hold in place. No problem at all. Then these these little sliding bits here, which you can fit some attachments to that. It's a hawk. Hang things off, and then there's another one here for your coars. It's not the strong pockets in the back of the seats. Heavy old laptop, those and it could hold in place. No problem at all. Then these these little sliding bits here, which you can fit some attachments to that. It's a hawk. Hang things off, and then there's another one here for your coars.
21	o Sir / Inis sin eavin As supercar. Virtat is it, Satar / 6 You know all the things you want from supercar. Pilus, it here are few better ways to make an entrance rolling up in an SL S8

24	6 We've got a good question here from you. Choke away underscored official through instagram results. Why I didn't get the addition one. On addition, one is basically the limited version AMG GTS, and comes with a fixed wing.
27	0 Fast.
31	6 Now, if you click on the pop out by now in the top pout by now in the top right hand corner of the screen on the link below the video, you can get a car way dot co dot uk to see how much you can save on a BMW X3 or any car for that matter. So then what's the verdict on this car should do ? Avoid it should you consider it should be short list it, or should you just go right ahead and buy it? Well, I recognition. Go right ahead by the X rate of the matter is the verdict on this car should do ? Avoid it should you consider it should be short list it, or should you just go right ahead and buy it? Well, I recognition. Go right ahead by the X rate of the matter is the verdict on this car should do ? Avoid it should you consider it should be short list it, or should you just go right ahead and buy it? Well, I recognition.
12	6 Look at this. It is coping with readworks, which you get anywhere in Britain. But we're not coming into the silk.
3	0 So it has , I think , from what I can tell about a 25 mile range on the batteries, if you just drive it on pure electric mode on Dhe , then But you can also drive in a sort of varying states of hybrid modes , like a hybrid car so that the battery comes in and then goes off again . And then the petrol engine comes in . So you're getting higher mpg , Uh , and then you can also have it in sport mode on . Then you haven't in sport
5	0 That's gonna scare small children . So let's take a look .
14	2 In some ways, this car is a bit schizophrenic. I mean, check out this, which I think is one of the coolest features of the car, is this little spoiler that you can push your button and raise and lower. It says I'm all about speed.
4	8 And like Harry Potter, I could use my finger to turn up the volume of the radio. I don't know if you need five ways to interact with the infotainment system, but if you like cutting edge technology, this seven Siri's is crammed full e.
3	9 You know, you shouldn't be put off by the fact that it has a reputation for being driven by people who work in a certain profession. Because, actually, for a small, sporty coupe A8, it's recently practical that couriers could probably use it. So the boot is about the same size as a Ford fiesta is. The only problem is, is that well, it can only carry things in a certain configuration because the boot is quite shallow, and
21	0 The engine in the 2 50 Bluetec produces 201 BHP and £388 free to talk , giving a 0 to 60 time of 8.1 seconds and a top speed of 155.
20 30	1 You can buy a C L . A . To 50 with Bluetooth power memory seats , rain sensing wipers and eight airbags , including Duel Me Air Bag's Natural .  5 Looking down on peocify or invisibility is all rioth there. The back window sint 1 had bo, but there's not not by the rib. Hello in. Maris a good thing .
30	5 Locking cowin on people or missioniny is all right reflect. Intel Data Control of 80,000 for the car with all the bells and whistles on. This Actually a lot of money, but if s prefit youngetitive when you look a like for like examples of Ranger Vela, BMW X6, the Maseratil Levante. There is no like for like a Porsche Cayenne anymore, because Portia no longer makes diesels. But there you go. That's just the crazy world.
16	8 It wasn't like music. And that the think out decadration system. If you're a journal and vot constant in the roughet when you're trying to deliver to constant in the roughet when you're trying to
18	4 If think it's absoluble by bits car. I many sur unity with or it is not in the control of the
22	3 Set the car with an air purification system which involves perfumes insideal. If you've opt stimy ownseries, I found hit, you've opt stimy ownseries, I found hit who was perfument in sideal. If you've opt stimy ownseries, I found hit who was perfument in sideal. If you've opt stimy ownseries, I found hit who was perfument in sideal. If you've opt stimy ownseries, I found hit you've opt stimy ownseries
6	7. This particular car, the X line it's not from 241,000 but 10 ulgooned the details into Carl. Whosa. Andi. Jook an offer back for 39 a half \$1000 which is pretty oood. I would not oo for this trim level that I would step up for the M Scort.
8	9 Now, both the AG and this A7 are stuffed with new technology, including here at the rear wheels. You can get optional all wheel steering. That's right. These rear wheels will steer up to five degrees, and that's great for Carbon Caryon's makes a Carm or trackable, and it's also great for when you're parking because it's easier to park the car since the rear wheels decrease the turning radius.
20	7 And then there's the price . XC60 three keep a starts from £62,000 but if you click on the popular band , you can save around five grand on one card co dot uk . That's exactly what James did .
3	3 They're one of the high points of the Q5 asshole. Just how relaxed quiet is to drive.
7	1 Yeah, this is pretty good side decent school of box. Got some good stories into here to USB imports for your driver and passengers. Mobile phone on the door bends. They can hold a big bottle, and it's the same story. Actually, in the back seat. See, even rear passengers. They have large door bins.
17	6 There are quite a few things about Mercedes , a class which help make up for all this .
18	9 But so now, since we all around back first, I want to mention there is a power liftgate that will come standard back there so you can simply use the button on the key five. But if you like, it's all power eyes, even the bottom section. You just press one button walk away, and then it goes down and up for yourself. That is definitely convenient, but once opened up, cargo capacity is gonna commit 33.9 cubic feet.
27	5 The emergency assist will automatically slow the cart or hold if you stop staring , save you falling asleep or died .
2	6   What's up , guys ? Welcome to Supercars of London . How you doing? I hope you've been enjoying the recent vlogs on the supercars on YouTube channel . Today I'm out and about in this car and over the weekend I put quite a lot of miles on this car driving up to Lincoln Ship . The Audi A one is a car that I didn't know too much about until I bought it . And then over the last two weeks , I've been putting some serio
1	6 the new Audi A4 . Well , that's the thing is the new Audi A4 .
7	4 Actually, I have to say handling is a little bit this pointing all the steering is quite good. It's got lots of precision. There's no massive amount of feedback. Sometimes make corner. You have a bit more, a bit more, a bit more, a bit more, a bit more.
13	5 Um., the view of the division issue is the main one in this car . If I had a scream , we reversing camera . That would fix that .
20	0 Let's finally move on to the Audi Dr selected that you get within the Audi A one and this is something that I really wasn't expecting from this car because it is the base level . Smallest little Audi . They still put their drive selected on both A3 systems, but it doesn't make sense . All three systems make a huge difference to the card . I just wasn't expecting so efficiency mode basically cuts the engine . If you're coasting
18	6 Nathan Adeline saying See you next time. Yeah , but do you fit Nathan ? Let's find out you're seriously not gonna close it on me , are you ? Oh , you bet I am . Don't do that . Anything . Ah , crap . 7 This is a ver vex
18	/ Inits is a very expensive car.  4. And Thin ploning that I can prove that here on this BMW off road course and show you guys that you do have Ah BMW, are you thinking about buying one. It's actually not bad off road now, next test is approaching departure angles, so let's stop right here and let's check. This one's out there. Three numbers have determined how good a vehicle is off road, and those numbers are the approach angle, the departs.
33	A right 1, 0 to 60 in the fact to 4 and 15 with the fact of 5 with the fact of 5 where you is a
9	3 Almost as annoying as having to be a passenger in the back of this car. Let me show you why. So fm going to move this seal out of the way. It's very low. Roof on 70. Really squat down and watch this, right? I'm gonna pull this back. This is not gonna be pit
3	2 If you click on the pop out but in the top right hand corner of the screen on the label of the video, you gotta call why dot com to see how much you can save on a new car here in the front there, six GT-R is pretty identical to the five Siris on which it is based, But that's not a bad thing, because quality strong in this car really nice materials fills solidly built. If I'm brutal, it lacks arbiter persons, and it's a bit dull into
6	
	9 Speaking of which, Till try and summarize. Now you see, they cut his food is a little bit more than its rivals, and that limits what you can get into it. So does the fact that the opening is quite narrow, so it can be a bit of a pain to lewed, wider items. It doesn't make up for these failings with some under floor storage. There blowed up isn't too high. You got various next about the place. 12 volt socket. Some lether g

9 39 2 14 4 16 4 26 16 13 13	9 But two sides led Headlights will come standard along with led daylime running lights and with the executive pack. You can also get led adaptive lighting as well , meaning when you're going around the bend . It like those headlights will swivel based on your steering angle to better eliminate what's around the corner and then make your way to decide on this one .  4 Yes , training automatic gestors can be a little bit jet's, at slow speeds .  4 You know where this is gonna take me. Actually I, wouldn't get stranded. Not because of Carl. Conch over the terrain will do easily. It's more the fact that I might run out of luel driving through Middle Earth this now for more information and to see how much money you can save on this car .  7 And the question is a simple one. If you're gonna spend almost \$130,000 on a car , did you spend it on this or the Mercedes ? I'll let you know before this review is out.  1 Oh., yeah .  8 So might be presumptuous of me to assume that your car is not as fast as this car . But odds are . if your car has more than 451 horsepower, you're either too busy wrenching on it or commanding your business empire to watch this video power for the C 63 comes from a 6.3 liter V8 . and that's pumping out again .  7 The mgf. Four door will cost from £125,000 for the normal GFR on £135,000 for the higher powered s version. But does it eel suitable? Expensive Inside ?  2 This car is very similar to the A3 on which it's based. Got pretty much the same dust design. However, in this queue to you gonnal liven it up with things like different color trin Here on the dash, on on the door handles , he can personalize your car in terms of kit. Well , equipment on the whole is okay .  9 Whenever you put the cord up or down the coal automatically with the windows such up. If you want it to. Anything is if it gets to put up the rear most windows , so you have to the move to another button to do that yourself. But often you forget what that noise is .  1 Another BMN , another pointless phone cradle under the C

10 1 I'm gonna have to get the umbrella around when I bought this car came with an umbrella. So I have to get out Curry eating Skittles The tiny 650LCC engine doubles the eye three's total range, though it does add weight, thereby reducing pure electric range just a little bit. 9 Rest that blow hot air on the back of your neck and a triple layer soft ton canable of deploying or retracting about 13 seconds at speeds up to 30 miles an hour 6 the Audi A one. Now this is a car, which proves that size doesn't matter, and that's actually backed up by recent article ours reading my favorite magazine. So there is a genuine big car feel, even though this is quite a dinky little thing 6 You might not be the newest kid on the block , but it still hasn't fascinating features here S5 them . 7 Actually , considering RS5 \$10,000 premium , it commands may not be a huge deal . 22 6 Does have a few traits Is A5 O We've got a big \/8 under the bood A life worth miterating that in this case, anyway, disching the top does nothing but enhance the driving experience in every measurable way. 22 2. The first is the ear. More Elick test. So I'm google goes by the facility threshold in the first is the goes and the go 3 Like I said, to get in and out. Look, there's loads of room on the seat is just the perfect height. Futures sit on two. So it shouldn't be too hard for Ld relatives or kids to get into the back like in some tall S E v E's. Now for just shuffle across, I can show you how much room I've got here. So headroom, That's all right. Look at that Knee room is amazing on because the front seats are quite razor. You can really stretch, 7 People don't mind for me 36 6 Thanks for watching. Enjoy this video, please. Like it carried on subscribed channel. Look over there. You can watch our detail practical. It's in entertainment video reviews on our 3.60 degree passage, right G20 straight in this video, it was the A8 A8 size piece of paper 2 Now this point, you may be wondering to yourself what's the difference between the A6 and the A7.2 Well, the skin, of course, is different, but the biggest difference is right here. 15 1 know Modern cars have oot start stoo technology, but that's really annoving. You don't notice this engine starting some things you could tell. When I first oot in it. I couldn't tell whether the cetrol engine was running off. Now I'm cetting used to the controls at the moment is telling me I've done 99.9 miles to the gallon ? Well. that's fairly obvious because you haven't used any petrol to get along here is doing 10.9.5 kilow 6 All right. But I must say I'm quite surprised with this new RS6 300D GT-R Maur than the old car 1 Not that convenient that pull this down. You've got this arm. Rest of this ..um. bizarre storage under here. You can actually have through loading . though . So if you wanted to ski trig . you go people siths down. You've got this arm. Rest of this ..um. bizarre storage under here. You can get a new car, a car while dot or, dot uit. Thanks for watching. Enjoy this video, please like it showed on. Subscribe to our channel. If you look over there, you can watch our detail, practicality, entertainment and 360 degree passenger Lyideos for the RMW seven series. Now. Did you snot the Fast rake in this video, 2 it was the 23 3. It is a feature that is almost always an online on higher and vehicles, but it is going to come standard with the M5. What's there now taking a look at the front seats. If you cannot find your perfect driving position, anyways. With 20 way power adjustable front seats, vou're probably not going to find your perfect driving position. Anyways. With 20 way power adjustable front seats. 6 What each of these cars has something that makes him stand out 9. Here's another approved: When I pushed the lock button and I'm more than 15 feet from this van, it won't unlock. Sometimes it won't unlock when I'm right un the side of it. I pushed the lock and unlock to the van in order for it to lock and unlock. It's quite approving, especially when you're used to having a webide that you can lock and unlock or bit the pagic button and 2 Audi to some of the best interiors in class. But having said that this interior started feel just a little bit dated. The screen feels a little bit too small 7 It's pretty nice here isn't actually a cz a swell in my Benz £110.000 coop. A8 kinda replaces the SL s. but it is a lot cheaper than that , a bit more usable 27 1 There are plenty of cool things to like about the A8 with a wheelbase versions, you can get optional foot long list for the passengers. 6. Put your foot down in the straits on because it's a RMW. You have that German reliability of you know, it's actually nut together properly and all of the wives of being connected properly where is in the Italian care but also convinced the reliability of Italian care as good as the German care Straight This'il car looks awesome 35 4 Then there's ride quality. The suprencion inn't criffy conting. You'll definitely feel the road. Rut all the undescent have been defly subdued in normal driving. The ride is lovely, but when the moment strikes the O7 corners with tenacious righ. an immossive body control like what I'm doing into those and the while steering with definitely feel the road. Rut all the undescent have been defly subdued in normal driving. The ride is lovely, but when the moment strikes the O7 corners with tenacious righ. 35 2 And as fantastic as this is . I think the exterior is a little bit Larry the Rs three . slightly more understated . I just feel the interior slightly classy and everyone knows that Audi interior is is up there with the best I think I would have in our history . 23 9 The ontional laser headlights are twice as bright as normal headlights on. They can shine to 600 meters down the road 9 Or that is How can they make a door do that ? It's so much better than normal doors 4 If ride comfort is you'r ton originally, either stick with the Base X two or for \$500 at the dynamic handling package with its adjustable damners. And for those who layer comfort, snort and efficiency enhancing ICO promodes come standard. Front wheel drive is also standard to the for sincery environs or dainty of madino, all wheel drive is offered for \$2000. Co. Ha O Good hits involved prefix much anything that happens when you were in the move in this car. I mean, the engine might be turbo charged in somehow know, keeping the culture of a proper M car. But it's an absolutely monster on the move. I mean, if you didn't know this engine was turbocharged. I don't recognize gave because the throttle response on the power delivery what a great hit falk you get is just amazing. It 6 The LAS clearly isn't for everyone, but it does go to show that environmentally friendly vehicles won't spell the end of performance cars. So if this is what the future has in store for us, sign me up 2 This particular car is in esports from so you've got the bigger front grille there, and it's got the air curtains. That air goes in there because of the side of the wheels and escapes through this breather here, and it helps smooth the airflow in it. I was just gonna be guite aerodynamic once again be in sport. 2 My is quite possibly the nicest sounding diesel engine in production . that the rest of the package is ovary Audi Q7 . So it's pretty nice inside . It feels like a tall estate car . if you like . rather than a lout . Four by four . And that's a deliverer . Audi think peccele like the fact that it has these high window lines does . It is very difficult to see where the bonnet ends 1 So you got this huge central screen . They want this card got digital instrument displays . 4 Largely aluminium M3 A4 suspension straight six engine has been tweaked up to 365 horsecower, and it drives through either a seven to beat D C X6 because manuals evacuated X6 downshifts to smooth. That's okay. There it is. Very good boys. Right, Well, I don't like the option to turn it off. You can turn it off the any way I can find your way. Might like the option of oping that way. 4 That's what This thing stop that that silly ? This isn't Audi after all . They're supposed to be sensible . Roy . Well . ves . On DNO . 3 With that said , the back seat is a little tight , so I'm sitting behind myself and frankly , losing a little bit of knee room . So it's a little tight . Also , my feet kind of gets stuck underneath the seat just a little bit . 26 6 It may have been the first model to other three Sir's name. but this car still had a lot to live up to to. It replaced the 2002 T. which is a fairly legendary car. This is actually the 3 20 which is the four cylinder too early to call this actual car bean really immaculately refurbished by BMW Park Lane Classic. and I don't think you will find a cleaner example in The Land is extraordinary is only oot 7000 miles on it. have done an income a 7 despite its near £100,000 price tag BMW, it could be one of the best value cars on sale right now, I think about it. 0 It is a cheeky little far When you lift off the roll , You know what I reckon ? This five sixties , actually the pick of the range . You don't need the full fire , high performance mg versions . It should give bear economy as well . So I'm getting 22 miles per gallon that because it's us. Yeah . I'm not bothered about climate change or make Britain warmer. 1 You will find Dole 12.3 inch color thuchscreen display Is one of them being the majores. of course, but writing center it is buch screen vice activated. Or you can use the circular dialing buttons just to the right that shifter so clerby of ways to adjust what's on that tech display there. Bluetooth and audio streaming will come standard. You will get Annie Carniary with a one year free trial. Their factory navigation again is go 7 Today prices started around £14 000 2 Look at how aggressive this thing looks. Just first of all, right off the bat, it hits you in the face. 9 Relieving the most be having night blooming brilliant boot is 10% smaller than on the normal A3 . That's it . I definitely don't want Jake . 9 Given this is sort of SUV, you might run as a second car. It's probably just about big enough value for money 6 This new S4 is 50 kilos lighter than the old S4. It's also got perfect 50 50 weight distribution on the 40 I am 40 D models come with an active rear differential for added sported RCR 28 7 Regarding dollars and cents , the Audi Q3 is mid \$34,000 . Starting price includes a slew of premium standards such as HIV , headlights , leather upholstery . 9 The rear seats aren't suitable for anyone other than small children and skilled contortionists and cargo space consists of those two seats and the small cubby hole back here. 3 But then let's make our way to the rear leg room because we all know Third Rose sometimes don't always fit adults . 1/3 road leg room is going to commit a 33.3 inches . I mean , even six feet tall . I did manage to fit , but it was not comfortable . So third row is probably better left for small children , as it is with most three row SUV is out there 4 With a car like the S.L.s. It's really quite hard to just look past the sort of gut wrenching desirability that's so much a part of it. But we've covered 12,000 miles in the S.a less over the last few months, and actually that's given us a chance to really lift it. Straight weakness is that it offers as an ownership proposition 8 You can cycle through the different menus, and you basically control everything, including the sathav here, through the wheel. Or, if you want to, you can do it here through the swivel will on the system is really, really good to use, and if you click in the top right corner of the screen on the card you can see at in depth review of it. 1 This so much base I have back there also , for there's a rear passengers, they will find a rear center armrest with cuphoiders. End with the convenience tear package, you will also find rear man 0 There only two engine options available for the new X four, and they're the two litre straight for and the three litre straight Six Turbo engines And those of you who know BMW engines know that the four cylinder be 46 code name has been available. Another BMW cars already, but it's also under the hood of the X four, and the rating is 248 horsepower and £258 feet of torque. The engine has made it to Nate's with auto 8 The mirrors are really good. The rear view is excellent. Controls are very intuitive. As soon as you see the dashboard, you know exactly what you're looking at 9 You get a special Audi tents which attaches to the car's tailgates because I don't have it here. 6 1'd like to thank Phil for letting me borrow his car. And 1'd also like to thank Mercedes-Benz. I'm not gonna say thank Mercedes-Benz, fully charged by lending me their latest battery and plug in hybrid and electric vehicles. Maybe one day I will maybe they'll see this and they'll go all right, let him have one, then for a couple of days, because that's the trouble with a very short drive 0 We're having a lot of fun this afternoon way have the r S7 the RS6 the RS4 just it's just got so much Oh , it's just goes so much character to it . The RS4 in front . I'm having a lot of fun actually keeping up with it most of the way . It's an absolutely brutal car in front . 5 Audi also offers driver AIDS, including blind spot warning and a driver assistance package that bundles automalic high beams, lane keep assists and full speed adaptive cruise control with low speeds, steering guidance so you can invest just a little less brain power into your morning commute. 0 5.2 liter V 10 produces 5 25 horsepower . One of the most amazing engine note I've ever heard 2 It's not the Quattro system, As you'll see that is missing from the aggressive new front grill, which is more of a hexagon shape similar to the Lamborghini hurricane on . The new headlights are actually quite cool . If you could see them, it's a nice specifications, this car . I wouldn't say it's the best one . It doesn't have the court system to . It doesn't have the . 9 Let's have a look at the interior . Gonna pop the boot ? All electric, of course, and you have a split taligate. The bomb part is electrical as well . The boot is a nice big square shape. Some extra storage under there as well . No spare will . This car is obviously on run flats on Dhe . Pull these levers here . I can lower the back seats . There we go . Very easy to do . And then I could just pop up the taligate and then shut . Ti 2 Their design is it's just more Victoria Beckham than Kate Middleton 0 There's virtually zero lag from the twin turbo, two liter inline four that powers the X3 and shifts on the excellent eight speed automatic transmission are expeditious and well spaced, even in comfort mode. Flip it into sport and things become a little bit more interesting. The gears air held longer and the acceleration is more immediate. Things get a lot more BMW. I want more control and quick acceleration. Situations sir 6 It's up to 85 kilos lighter than its predecessor, which is like removing an average sized man from the car. Go on, off you go. Average size man. 2 The look is also closed by the required percentage through enthusiastically driven curves according to the levels of lateral acceleration on Dr at Work 0 Another problem is a hybrid system itself . Right . So you got electric motor on board this car Andi compound R8 for up to 90 miles at speeds of up to 75 miles an hour . The only problem is that if you want a sudden burst of acceleration and you put your foot down , they're not to a burbo petrol engine . Four cylinder for the Mini Cooper's kicks in , and it doesn't make what I wear are strained noise . BMW claims that you sh 20 6 They think they can subscribe to our channel there to watch my detailed review of the five series salute on down There. For more detailed review, the Volvo V90 Estate 1 And of course . it is equipped with not the bird . Mr sound system . But the Harman Kardon AMC buttons . adaptive dampers . electronic stability control and drive mode selectors are all hard buttons right next to you . And . of course . the Gear selector . which is one of my favorities . has the fault Urbach loop embossed onto it . It looks incredible 0 And despite carry around an extra £120 or so GT-R GTC roadsters , it still dash from 0 to 60 in 3.7 in 3.9 seconds , respectively 0 Well , you could get four different petrol engines on one diesel . This particular car is the 300D , so it's got to be two turbo charged petrol engine with 100 45 horsepower , and it will go north sixth day in just 5.6 seconds . And it feels really quick , and it works nicely with his paddle shift nine speed automatic gearbox 0 They get the Q3 where two petrol or two diesel engines, and if I were you, I will go for the 1.4 liter turbo petrol with 150 horsepower. It's nippy, It's smooth, gives decent economy on you could get it has front wheel drive only, which will save you some money. And it's about it you don't really need or will drive. This car Q3 is also available in the six speed manual, which is Lord or this seven speed automatic, which is I 7 It starts from 63 a half £1000 . If you click up there , you could go to cars dot co dot uk and save on average , 16 grand one of these cars on dhe . 6 I'll be completely honest . I don't think I have completed a full mile driving in school . This goes back to the A 45 a . M . G . That I drive . It just isn't really necessary . I haven't completely looked up into what it changes about the car. 6 This is the new Mercedes A class and it really is all new. So you got new body panels, that new mechanicals and all new technology in fact states lots of kit from the S class . It really should be the poshest small car you can buy . But in this video , I'm gonna find out if that's true . If you're wondering what the heck I'm carrying the camera myself is because it wasn't a space on this launch from a cameraman . So Apologic 7 Like for light from the saloon to this coop A8. It's only about a ground, so this car starts around £40,000. If you click up there to get a car where dot co dot uk, you can configure your ideal car, get offers back from dealers and compare prices without having toe haggle.

4 You know what? It doesn't actually feel like a normal BMW to drive. It's li's more like a Mercedes, actually part. The reason for that is that you get adaptive air suspension of standard on . You can put it into different modes, and I've got in comfort plus than it has this really nice, soft, relaxing, floaty effect. You do feel the order joil through bigger bombs on rough surfaces. It does fidget around a bit more than the supe it is got part in San says he's got your individual climate control. It's got your C D player . It's got sat nav. We'll take a look at the screen so I can show you some of these things. So we've got your D A B radio FM AM is a CD player . Um, you got us B. Then we come back out there. We've got your blue tours to let your phone. I like that little off. You're on wait hours. You can't date. I like that. Then we got your SAT is

0 Riggs . So much talk as well .

12 16		2 It's about looking good , too . The			live series to make the	ne M5 stand out , so you've got s	some extra creases in	n the bonnet to ma	ake it look more aggressive an	d hint of the power th	at lurks beneath . Y	ou've also got deeper from bump	er with large air inta	akes and a standard M5 gets ac	ctive led headlamps .			
26		8 I'll increase the temperature to 25			o been elses been	Dut to dour - unbon - unu anuld ant a	DC4 E0 one that and	to 20 of source it	Yo a different eard. Per well av	are of that but no on	dhalasa sata 10 mil	les to the seller more than I'm as	Hina a real world to	ation that is supersize. Defere	mu manau Pd arabah	blugge for the discolusion of	this is at because you	ot plants of torus
26		0 It's 18.2 . That's the M . P G . I'm																
5		9 No . One of the interesting things					little ports on that cer	rtain on this . But y	you've got tight too . On the ot	ner side , not ccs . Th	is has ccs on well le	eft hand drive on the driver's side	on the right and dr	ive . It'll be the passenger side ,	and it can charge is ti	he first production electric car	. Audi says that can cha	arge 150 kill awa
24		7 If you look up there , you can see																
8		1 Then there's the entertainment s	ystem now at Star	, did you get 6.5 inch screen and	I sat right across the	range ? Now this particular car a	actually has the upgra	aded pro system v	with an 8.8 inch screen on It's	absolutely lovely and	control it all using E	BMW Zay drive , which I've said s	o many times in all	my reviews .				
9		4 Andi super quick .																
7		0 A 35 . Clearly , it's not gonna be a	as fast as that a 4	5.														
7		0 I'm talking . Rapid charges on mo	otorways will have	battery packs attached to them,	which will be constar	ntly charging from the mains, wh	hich will give them the	e charges . The all	bility to deliver a great deal, m	ore power in a short p	period . I've got this	car for a few hours today. What	was annoying was	it wasn't full when we got it, so	I've got no idea . You	know, I'm not doing a kind of	realistic test , but it's ve	ery obvious that,
21		3 Three . You sit a lot lower and the	e center a lot more	hugging, which is really, really r	nice . And the one fa	vorite bit is how high the sense of	of concern is . And I th	hink that comes w	vith a lot of supercars, especia	lly the Lamborghini G	Sallardo . They start	t in the center console on this bit	is really high and r	makes a really nice arm rest . Al-	n, nde . Unlike the R8	, you don't actually have to or	ompromise using one o'	f your cup holder
17		4 Let's talk about the four wheel dri	ive situation . This	video is going to seem like a grap	e fest about this var	. but there are a few things that	t need improvement.	and I don't care h	how big a fan you are of Merce	des or European van	s . There are a few	things that need improvement .	he vehicles so long	and so wide that when you get	into a situation where	e vou go like into a dip in a turr	and when we're out in	Utah and Colora
18		2 That's really the easiest way to d																
21		5 It's a lot of fun to play with as long															3	
19		2 Amazing , right ? Let's talk about														orting Generally quality is in	et the same a 78 on th	nis wood veneer
16		4 Theo s Class delivers a driving e				s parts with the Ab Galdon , but i	inside a siigility dillere	ent so you'll nouce	e triat trie certital part of trie de	an is angled towards	the driver . On this	, combined with the center cons	ne , wilicii separate	s you nom the passenger neips	s make it idei more spo	July . Generally , quality is ju	st tile saille a 20 , so til	iis wood verieer
11			xperience once re	served for luxury cars with incivial	rision price tags .													
11		3 That's good .																
13		On a standard , you get a perform																
2		6 It comes as no surprise that the s					eel it on the road Mer	rcedes-Benz that t	the roads the ways Only 40 kil	ograms more than the	coupe , but about	1745 kilograms , which is really	quite impressive for	a car of this size .				
18		6 But the upgrades and innovations			competition quite nice	ely .												
15		Absolutely way must charge the I	battery is very imp	ortant .														
36		0 You know, it's got a brilliant engi	ne .															
29		0 Still , I'll forgive him to be those p	addles for one sin	nple reason . You can also get the	car with a limited sli	p differential, which is, you kno	w, actually this or thi	ink . Also , it helps	s with Rex T attraction .									
8		4 Now , having this amazing s troni	ic gearbox in front	of me driving this every single da	y is brilliant . I don't	really put it in the block . So I wa	nt to put it in the logs	today because tr	ip up to Lincoln , which waas a	lot more comfortable	and better than I e	expected . It was all motorways a	nd the A one which	takes you all the way up north .	Lots of lots of cool car	urs driving past BMW Enforce of	drove past couple of Fe-	rrari's on this car
19		9 They're not quite this writing is do	oing to get your dr	iving guite a lot of fake plastic eve	nts on this car as I d	emonstrate with the calm one st	ick of truth . So look f	fake . Bake these	hair , fake the light on the hind	I I Conan no points at	tack . A thing that b	oothers me the most is this big sy	athe of plastic here	this event which is also fake				
26		4 Also , it gets air suspension , so i																
		0 However , this time the rear axle								g	gaa p. casa u.							
12		Still , there are some nice feature																
17		3 See in the car on just what happe				s . He can carry unings unough	triere , and still two pe	eopie eitrier side .	. Great .									
17																		
- /		0 That diet is really good news for																
30		And I suppose if that's my driving																
1		6 Hello , everyone . And welcome t																
6		4 But when Wright heighten all the	S4 is more aggre	ssively tuned . Suspension still fee	els nearly as compla	int is that of the standard A4. Th	at doesn't mean it's a	a slouch in the har	ndling department, either, tha	nks in part to sharp s	teering reflexes, ar	nd he smartly calibrated Quattro	a drive system tha	t apportions 40% of available po	ower to the front whee	ils and 60 to the rear. In other	words, going fast on the	he S4 doesn't red
26		7 But I also think it's fantastic . Valu																
1		6 let me introduce you to the brand	new BMW 3 28 I	X , Dr G , T or Gran Turismo . And	d most important thir	ng you have to know about this o	ar is that it does not s	share a single bit	of sheet metal with the three S	iri's . In fact , it's muc	h larger and coming	g up next , I'm gonna give you ar	up close and perso	onal take on the brand new BMV	N with the Great Trunk	k, and he says, Now he's gor	ına give you a full revie	w of this BMW or
2		3 Let's be friends .																
21		4 Some people may be made just a	a little bit uncomfo	rtable . I think what it means is this	s car better Be damr	good to drive the handling better	er be spot on . So let's	's find out .										
9		2 Actually . as we go then it's amaz																
29		6 It came with stock , but everythin		nackage Honestly think neonle	ask me this a long t	ime. If you have one cup, this o	ar is un there. It's so	hard to signal S	So right now this video really i	s about discussion the	e future off this plat	form. The future of this car, this	enecific cards to the	is channel on what might come	next Now I'd love to	n hear from you guys. Is the c	ne of the superstate vo	u would like to se

How , re love to	ricar ironi you gayo . io aic oi	ic or the superstate you	a would line to be
5		But before I go any further , let's							Labifi Man urbara Lbaua full	control over the chifti	na hasa Ca laila n	ut it in first year bare and late to	at aut the paddle at	-iBara				
37										CONTROL OVER THE SHILL	rig riere . So let a pt	ut it iii iii st year nere , and iet s te	ot out the paddle of	ilitera .				
		What is great , though , is the aut																
14		4 The brakes are phenomenal . Ste				tually well dampened . I have a r	real sense of what the	e wheels are doing	g , and I feel like a race car dri	ver . And I really appr	eciate the fact that	you're not nervous because we'r	e flying in this bad t	ooy pretty quickly . Race car driv	ver with a lot of styling	1-		
4		4 A4 will drive system and , in theo																
6		2 You put these massive fender fla						o get up to that lin	e, but never fall over it. When	e a car becomes silly	. This card to me lo	ooks fast , powerful , elegant and	yet it still works as	a family car . It's not a car that s	creams . Look at me .	. I'm gonna blow your doors of	f. But it does say in a v	ery subtle and w
11		4 It's heavy steering . Steering , fra																
10		4 All right , let's do a lap of this test	t . Track my mind t	that I have very aggressive tires . A	And , of course , that	t hopefully ideal 50 50 weight dis	stribution . So let's see	e how it handles t	turbo power comes out right av	vay, pushing a little b	it there , front and p	push I've got in sport plus mode,	which means a trac	ction control is off . It's just up to	me at this point into the	he dirt . No . One but my own	fault Steering is sharp .	I know it's electr
10		1 Have another good look around t	this cost cabin, ar	nd you will notice that could be cou	uld be under there de	ecent cup holders . They're large	door bins as well . A	and yet the glove b	oox is a reasonable size so bit	erly X1 . It looks sma	rt inside on its very	practical said then that's a sensi	ole stuff dealt with .					
5		4 And sightlines are excellent in ev	ery direction exce	pt up fromthe steering to the brake	es to ride quality to a	turning raiders that would put s	ome compacts a dan	ice to shame . The	e GLC is an absolute joy to Dr	Bless . It's down to ha	ave some fun when	you are really the only criticism	we have is with the	intermittently naci gear .				
6		0 By his encounter on DDE, it was	performed well .															
15		0 Okay , I think so . Sound Turbo S	South is absolutely	It just sounds said . It actually sou	unds stopping . They	are terrible and always offic . It'	's time again .											
19		3 If . like me . you have a bad back																
20		6 Andi is very practical now . If you					Now dot on dot uk. Ti	hanks for watchin	a Look over there for a group	test video between t	he beard of the ¥3	Mercedes-Benz see on the Ran	e Rover Evoque A	nd if enjoy this video please like	e it showed on Subs	scribe to our channel now did v	ou know the blue and v	white on the RMV
20		4 Explain how this system works so																
34		Well it's entertainment system is				you're just basically rolling , but	it a allowing your align	illy because you v	ve got tile regenerative braking	working . but you're	not actually doing a	anything , and you activate that b	y pulling a paddle o	in the steering wheer . If you wan	iit tilat region breaking	g to be more severe , you pun	inat paudie again , and	r ii give you evei
34																		
10		7 Add in most of the features one v																
20		4 Another thing you got to think about																
7		9 Also standard or models get an e			n absolute age to op	en . But once opened , the boot	is really , really practi	tical, and it's got a	a couple of really cool features	that I like . So the 1st	t 1 is the fact that lo	ook , you've got a lockable false f	oor so you can hide	away your valuables . Another	neat thing is that the	parcel shelf is easy to remove	on DDE . We're not use	ed , you can fit it
30		4 Well , Dr Means you call get slow	ved down in quite	the same way .
